

Bootstrap

Practice Question

Qs

Create the following pricing page layout using Bootstrap.

[use only bootstrap styling without creating your own custom style.css]

Use Bootstrap - grid & flex layout, utilities for margin & card and button components.

Please **Note** - You might have to read about a few new classes of Bootstrap that weren't covered in lectures.

How the layout looks on desktop:

The screenshot shows a pricing page with three main sections: Free, Pro, and Enterprise. Each section is enclosed in a light gray card with a thin border. The 'Pricing' heading is centered at the top. Below it, a sub-headline says 'Please checkout our most effective payment models'. Each card has a title ('Free', 'Pro', 'Enterprise'), a large price ('\$0 / mo', '\$15 / mo', '\$29 / mo'), a list of included features, and a blue 'Sign up for free', 'Get started', or 'Contact us' button.

Plan	Price	Included Features	Call-to-Action
Free	\$0 / mo	10 users included 2 GB of storage Email support	Sign up for free
Pro	\$15 / mo	20 users included 10 GB of storage Priority email support	Get started
Enterprise	\$29 / mo	30 users included 15 GB of storage Phone & email support	Contact us

How it looks on screen-size till “md”(>= 768px) in bootstrap:
